WEATHER OF CONCERN

Weather of Concern

- Excessive Heat Watch in effect from Saturday morning through Monday evening for areas in Imperial and Riverside Counties.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

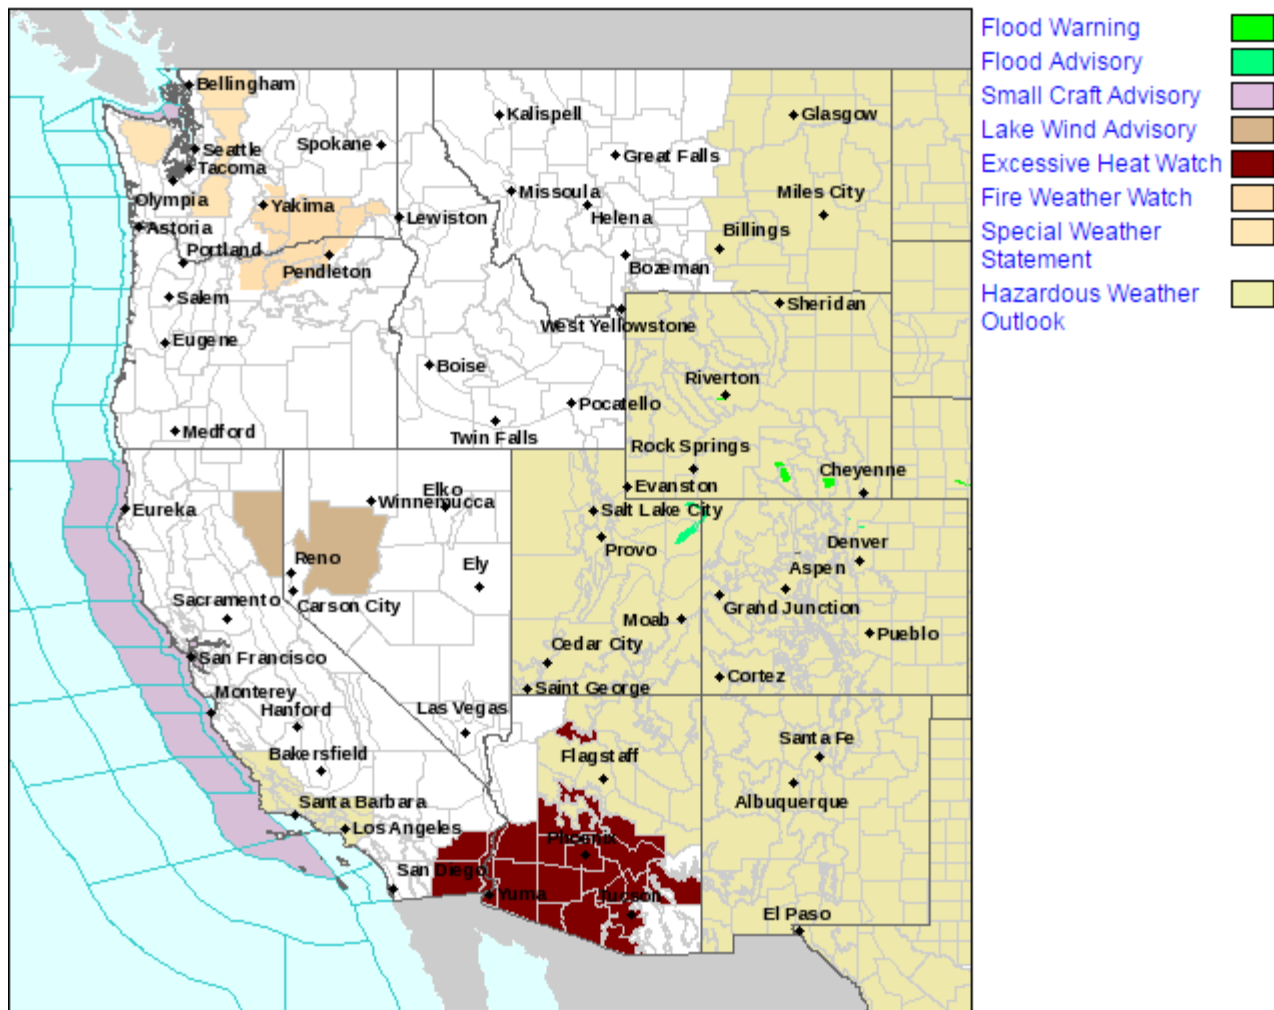

NORTHERN CALIFORNIA

North to northeast wind event to end at noon, continued dry and warmer weather through Monday. The north to northeast downslope surface wind pattern in and around the Sacramento Valley will come to an end around noon today. Peak winds are still in the 20-30 mph range, with the most extreme wind-prone Sierra foothill locations still seeing gusts near 40 mph. Overnight RH recovery was poor in the breezy areas, to only 20-30%. Onshore flow will be more noticeable in Northern California coastal regions today, and RH recovery will improve in inland areas tonight. Weak high pressure will pass over Northern California later today and Monday, producing warmer afternoons than in recent days, with temperatures about 5 degrees above normal in inland areas. Also, numerous showers and thunderstorms developed in Central California, especially over the Central Sierra, yesterday afternoon. A few lightning strikes occurred as far north as the Lake Tahoe region. A repeat of this is expected again this afternoon. Another low pressure trough will drop south from the Gulf of Alaska on Tuesday with cool and breezy conditions that will last through Friday. There is a chance of showers and thunderstorms mainly in Northern California Wednesday and Thursday. High pressure will build in from the south beginning next weekend and produce a significant warming and drying trend.

SOUTHERN CALIFORNIA

Expect scattered showers and wet thunderstorms today. Significant heat wave early next week. A weak disturbance merged into a trough from the Pacific Northwest yesterday, which brought an unexpectedly high number of thunderstorms to central California. The storms produced over 800 lightning discharges last evening, mainly from Fresno and Visalia northeast into Kings Canyon and Sequoia N.P. Numerous storms also occurred in the Inyo National Forest. Rainfall amounts ranged from 0.25 – 0.50" in these areas with locally higher amounts. Look for more convection in this same area today with brief heavy showers possible from the stronger storms. The rest of the area will see cool temperatures with deep and widespread marine layer coverage. Temperatures will be 5-10 degrees cooler than average with highs remaining in the 60s in the mountains and coastal areas to the 80s in the valleys. Minimum RH will be over 25% across most areas outside the desert. Southerly winds of 10-20 mph will occur in the mountains. The low will move east of the area Monday and weak zonal flow will cover the area. A handful of showers and storms will be possible in the Sierras Monday, but no further convection is expected the remainder of the outlook period. Look for a warming trend Monday, but an approaching trough may lead to slightly cooler temperatures along with breezy conditions by the middle of the week. Southwest winds of 15-25 mph with gusts to 40 mph will be possible in and near the deserts Wednesday and Thursday during the afternoon as onshore flow increases. Next weekend, an extremely strong ridge of high pressure over the Rockies is expected to move westward into the Southwest. By Sunday and Monday, the ridge will be parked over Southern California. This appears to be one of the stronger ridges to appear in the models during the past few years and valley and foothill temperatures will very likely be over 100 degrees by next Sunday or Monday. Look for temperatures to be 10-20 degrees above normal over the entire area early next week with near record temperatures possible. Low afternoon RH will cover most areas away from the coast. The Hot weather looks to remain in place for most of the week of the 19th.

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

CAL OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES LAW Missions

- **2016-LAW-24270, 6/10/2016, 1409 hours:** Placer County Sheriffs' Office (PCSO) has requested a Side Scan Sonar to locate a drowning victim in Lake Tahoe with a search commitment of 2-3 days. A college student from UNR went missing Friday afternoon while Paddle boarding with a group of friends on the lake, with a surface water temperature of 48 degrees. Search area is offshore from Obexers Marina (Homewood area), Lake Tahoe with depths between 115-200 feet. LDO is attempting to secure this specialized team to assist PCSO with specific search dates to be determined based on weather forecasts. **Mission Ongoing**
- **2016-LAW-24258, 06/10/2016, 1607 hours:** Lake County Sheriff's Office (LCSO) has requested two water certified human remains detection K9s to help locate a drowning victim in Clear Lake. **Update 06/10/2016:** Cal OES K9 Coordinator was able to secure 2 water certified HRD K9 for search efforts to begin 0900 hours on Sunday 6/12/2016. **Mission Ongoing**
- **2016-LAW-24242, 6/9/2016, 1207 hours:** Riverside County Sheriffs' Department (RCSD) requested search & rescue personnel for 6/10/16 to locate a missing 71 year old female missing since 6/7/16 at approximately 1230 hours in the Pinyon Pines area, Riverside County. The request was for 10 type II's and 10-20 type III's, rocky terrain conditions, scrub oak and predicted temperatures nearing 95 degrees. Orange, Los Angeles, San Diego, San Bernardino and Ventura County Sheriffs' Offices are providing SAR personnel for the search. **Update 6/10/2016:** RCSD made an additional request for 20 Type II and 30 Type III ground searchers for Saturday 6/11/16. A Cal OES Assistant Chief responded to the ICP for coordination efforts. Cal OES Law Branch coordinated with Orange, Los Angeles, San Diego and San Bernardino County Sheriffs' Office(s) who were able to provide the full complement of ground searchers. **Update 6/11/2016:** RCSD requested Type II/III SAR personnel for today's operational period, Sunday 6/12/2016. Orange, Los Angeles, San Diego, San Bernardino County Sheriffs' Offices have committed SAR personnel to assist. **Mission Ongoing**

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-Cal OES-21764** (EF-8): Waterman Incident. Environmental Health Specialist to serve as a Food Inspector. This mission is expected to be open until June. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-IREOC-21748**: Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2016-Cal OES-20822** (EF-8): Waterman Incident. Four Crisis Clinical Psychologists/Counselors to provide in-home and workplace trauma counseling, coping, and referrals with expertise in mass shootings/terrorism. Mission Duration: Through 06/30/16. **Mission Ongoing.**
